

A story about Corona Virus

Coronavirus

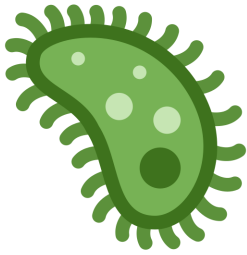

Corona Virus is a

germ.

Sometimes people call it
Covid-19.

To stop the

germ from spreading.

We must stay at

home.

At the moment we
don't go to school.

We don't get to do things we
usually like. We can't go horse
riding.

No swimming

We learn and play at home

At home we are safe.

At home you have your family.

You have your toys.

At home you are safe.

It won't be forever, just until our
world is feeling better.

And until we are told it's safe to
see other people.

So for now to keep safe, we are staying at home for now.

Keep safe Hawks
