

# Scavenger Hunt

## Recycling Week

Recycling week is a really good time to have a close look at some of the symbols we see on the products we buy and use in our homes. Look carefully at the list below and have a really good hunt around to see how many of them you can find. You could also do this in a supermarket. When you find a symbol write down the name of the item you found it on. If you find more than one you can start a tally to see how many there are. If you want to, print another sheet and play against someone else. Give yourself two points for each one you find and see how many you can score. Remember, these symbols may not all be on labels - you may need to look on the actual container (maybe on the bottom) to find some of them. Good luck!

Symbol	Meaning	Where I Found It	Number I have Found	Points
