

New Starter Survey Summary of Response 2021 (15 responses submitted)

Question	Agree	Disagree
The opportunity to visit school and/or speak with staff was helpful in choosing the school.	93%	7%
Communication between home and school has been effective. I feel I can always contact someone to find out information.	93%	7%
My child has experienced a positive and successful start to his / her school life.	100%	
If I have had any worries or questions I have been able to share them so that they can be resolved.	93%	7%
I am aware of the school website and social media sites for the school.	100%	

Parent / Carer comments.

He seems to be loving it and doesn't like it when he can't go.

We're very happy that our child likes going to school.

I have noticed her anxiety has decreased, she is calmer. Because there are fewer children in the class, she is not overwhelmed by the amount of people around her. I have also noticed she seems to fit in Brookfields and that she doesn't feel different from the other children. In her previous school she was segregated due to her behaviour, this caused her stress, I'd help dress her into her uniform and she would immediately take it off again, kicking the car outside school, holding onto the school railings that behaviour stopped. Her behaviour is still challenging some days but not as often, the school environment is a lot calmer, staff at Brookfields are more sensitive to her needs with her learning and development, I have noticed a change in her even though it's only been weeks of her attending Brookfields, I feel school is working at her pace which makes learning enjoyable not stressful for her. I thank everyone for all the support and help.

Your school is amazing and staff are wonderful I don't know where I would be without this school.

My child absolutely loves it always asking to go back to his big school.

Everyone and everything has been amazing.

As we found out late about our daughter going to Brookfields I've had no problems and the transition has went well, her teacher is fantastic and I know her as my older son was with her 2 years ago, thanks Shelley and foxes x

We're really pleased with how our son is already showing progress within the school setting and at home.
