

Curriculum Statement for PHSE & RSE

<p>Intent</p>	<p>At Brookfields school we aim to create a climate in which pupils use PSHE & RSE with purpose and enjoyment through learning opportunities that are motivating and meaningful and where skills and experiences are acquired in a flexible manner, where knowledge and attributes gained will support their own and others wellbeing and attainment in order to give them the skill set to becoming successful and happy adults who make a meaningful contribution to society.</p> <p>The curriculum supports children to make connections between areas of learning which relate to developing independence and key skills for life, that promotes communication, independence, emotional resilience and the development of self-help skills.</p> <p>The scheme will support pupils to reflect on their experiences and understand how they are developing socially, emotionally, morally, spiritually and culturally. This will support them to live healthy, safe fulfilled and responsible lives. Pupil's mental and emotional wellbeing is promoted and supported through individual programmes, group sessions and embedded into the ethos of the school through the nurture schools principals.</p> <p>The following key areas underpin our 'PHSE & RSE' curriculum.</p> <ul style="list-style-type: none"> >Develop skills for life that promote healthy and independent lives. >Be able to demonstrate that they recognise their own worth and that of others, and identify positive ways to face new challenges. >To understand how to express their views, and listen to and show respect for the views of others. >The ability to make choices about how to develop healthy lifestyles. >The ability to identify some factors that affect emotional/mental health and well-being. >Ability to identify different types of relationships and show ways to maintain good relationships. >To learn how to stay healthy and safe, physically and mentally including relationships and online. >Learn about topical issues, problems and events. >Understand why and how rules are made and enforced, why different rules are needed in different situations and take part in making and changing rules. >Demonstrate respect and tolerance towards others, and resolve differences by looking at alternatives, making decisions and explaining choices. >Show an appreciation of the diversity of religious, and ethnic identities in the United Kingdom and describe some of the different beliefs and values in society. >Ensures that all aspects of the statutory 'relationships, sex and health' education curriculum is accessible for pupils with SEND. >Understand the meaning of the British Values and how they support harmony within their own and wider communities. >How the impact of spiritual, moral, social and cultural is embedded into the school ethos.
----------------------	--

implementation	The scheme of work will form the basis of planning for PSHE & RSE. The scheme is supported by Equals, SEAL units, SMSC, B squared and national curriculum. It includes the statutory RSE & health education and the Unicef UK Rights Respecting Schools Award (RRSA) which aims to embed the UN convention of the 'Rights of the Child' within the school's ethos and culture. The scheme details for each key stage are as follows:

Listening, speaking Reading/Writing	Speaking/listening and attention Early reading Early writing Thinking and problem solving Enquiring Exploring my world Exploring technology RE	Listening Speaking Reading/writing Using and applying Understanding the world Behaviour for learning RE History

Enrichment	Educational visits Swimming Outdoor areas	Educational visits Swimming Outdoor areas After school clubs	Educational visits Swimming Outdoor areas After school clubs Girls group

The subject leader will lead their subjects by monitoring teaching and learning, reviewing progress through Bsquared, IEP's, auditing resources and implementing and reviewing the subject policy. Our assessment system enables teachers to make informal judgement about the progression of the children's learning.

National Curriculum and skills coverage will be monitored by subject leaders through medium and long term planning scrutiny and regular staff meetings. Scrutiny of subjects will also be provided during lesson observations, learning walks and termly moderation meetings in conjunction with the Leadership team and Governors.

The Explorers

Will work towards developing the prerequisite skills required to access the semi-formal curriculum

The Adventurers

Follow a personalised pathway which links to individual interests. Pupils will engage in subject specific learning.

Pupil/Parent voice

Parents have opportunities to comment on progress throughout the year, through regular email contact, phone calls, face to face and parents evenings. One of the comments are as follows: "What a brilliant year. We are over the moon with his progress. He loves going to school which is a true sign of progress. His speech is amazing us every day and his anxieties are easing all the time. Thank you all." (Reception parent)

All children have varied opportunities to learn and play alongside each other, building on skills for life such as communication, understanding, social, moral and developing relationships, following the 'Nurture principles' as follows:

Children's learning is understood.

The classroom offers a safe base.

The importance of nurture for the development of wellbeing.

Language is a vital means of communication

All behaviour in communication

The importance of transition on children's lives.
